

Non-standard Inkjet PVC Card- spec sheet

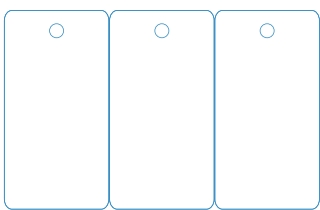

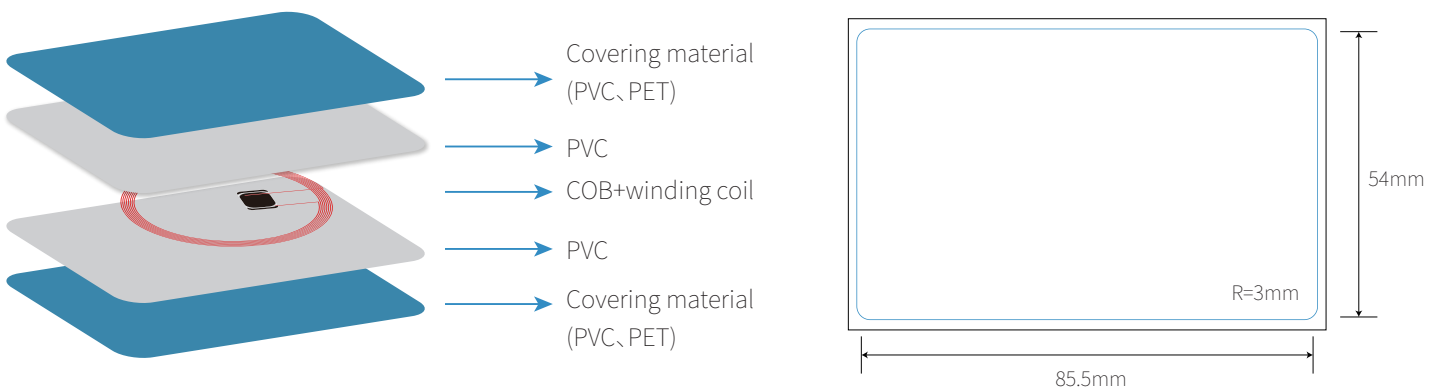

Non-standard Inkjet PVC Card is one of Inkjet cards that can directly print any cards you want by an Epson or Canon Inkjet Printer without a complex making-card process. There is little difference between Non-standard Inkjet Card and standard Inkjet Card which is that a non-standard inkjet card can be any size and shape other than the standard card size 85.5 * 54mm.

Inkjet PVC Card is convenient, low cost, and can easily make various personalized cards, like membership card, student card, company card, personalized photo card. It is widely used in the field of library management, clubs, visiting, promotion, advertising, enterprises, banks, traffic, insurance, super markets, parking lots, access control, hospitals, organization, campus, entertainment, etc.

Chip Name	Protocol	Capacity	Frequency
TK4100	ISO 11784/11785	64 bits	125 kHz
EM4200	ISO 11784/11785	128 bits	125 kHz
EM4305	ISO 11784/11785	512 bits	125 kHz
T5577	ISO 11784/11785	330 bits	125 kHz

Feature

Our PVC Inkjet Card can achieve photo-level printing effects through inkjet printing and features quick-drying, high gloss, waterproof, wear-resisting, etc. It will not be melted even in water, if it is accidentally touched the water, just gently wipe the surface of the water stains and will not have any effect on the original print effect. Additionally, our inkjet PVC ID cards can suit for inkjet printers like Canon and Epson printers.
