

RFID Blocking Wallet-spec sheet

How to protect our RFID card from theft by electronic thieves? Ordinary wallets cannot meet our needs anymore. You need a safer wallet-RFID blocking wallet. This RFID wallet has a special design built-in RFID protection-a completely aluminum case. It can prevent RFID signals from reading by crook without you noticing and protect your information on RFID cards.

This RFID wallet is simple and generous, designed for men. It is easy to carry and can be placed in pockets or handbags. Compared with RFID blocking sleeve, it has a larger capacity and can hold six RFID cards.
